

Dear Sir,

I love the music and message that is played and sent on KLOVE.

I know that everything costs a great deal, but please take into consideration the small communities that don't have much and the station means alot to us. It would impact me and my community greatly.

I feel that KLOVE has served and met a great need in my community.

Please take the small towns into account before making this decision.

I pray God's wisdom and blessings over all of you.
